We find the following in the last number of the Murphyshem E a Illian - mr.

The harde t blows a tek for the cause of he Democracy, and more paramy and the can e of W. J. Allen, have come and will come from the near of Hoa-John Oberiy. The Hoa. John stands in the same relation to the Republic to party is Illinois trat Key do sto the party na lonally, only a coat the fairness of the extrebel. Consistency would arie at suggest that f the Hon. John course "he se be bridge that car is a nover," he ought our or a parts good say ce while he sucks at the Republican test. The old story of the man and the equity would

The "Hor Jo'n" do urt s will a had Illinois that Key does to the party na total President Hayes. Cov. Cult om has no coloinet; and, if he had, the 'Hoa, John' works not have a place in it. Mr. Oberly was appointed Railroad and Warehouse Conmissioner because he was a Demo- at, rold his appointment has not made him a Repulse lican. He accept d the place as a De.pocent, will centiece a Democrat while he occupies it and who leave it a D Under the conditation of the State the Governor species cosin officers, or and with the a lyste most contant of the state By and with the a lyice and come of a Democratic Senate, Cov. Cullom, a P. pula-

Commissioners. If the fact that a Republican Governor appointed Mr. Oberly, a Dem ocrat, to an office is a good reason for saying Mr. Oberly should im: ate the example of Mr. Key, Heyes coeleders and become a Republicaa we may say, with just as much reason, that Mr. Wm. H Smith and M. G.M. Bogue, the Republican colleagues of Mr. Operly, should become Democrata because a Democrate Senate advised and consinted to their appointment. But the fact remains * not Mr. Oberly is a Democrat and mends to continue one. He debates with his Republican fellow-civizens with good temper and studious fairness; but he debaies to convince them and win them from Republicagism. He gives his party good advice of in, and sometimes his advice is acted upon He unegotistically believes that his party would be better off and sooner defeat the Republicans. if his advice were taken oftener. And this is his heart's desire and prayer-the defeat of the Republican party. He consequently wishes the election of Judge W. Joshua Allen, and for this consammation will si ke the hardest blows he can, and as many of them as possible. Mr. Oberly is an adder, if this is addersum.

A THOROCCH quarantine at this city is a matter of vital importance to every town above us on the Ohio and Mississippi rivers. and to every interior town and city in Illinois. This is the gateway through which the scourge may infect communities lying to the north and east of us. The existing quarantine here will prove wholly ineff ctual. Boats are stopped below the city and trains from the South are stopped on the Kentucky side for the purpose of staying the progress of the disease, but it we should, as we probably will in the next few days, find a case the important question arises. What shall be done with it? We have no place without the limits of Cairo where a yellow fever patient could be properly treated. We have no quarters that would answer the purpose of an hospital, and we are unable to provide any. In our present financial condition such aa undertaking is out of the question. But even were we able to do so would it be fair to put this entire burden on the shoulders of our people? When the vital interests which the other towns and cities in this state have in this matter are considered we think it will be conceded that aid rendered in establis'ting an effective quarantine here would be a measure of wisdom and precaution. The cities lying along the rivers above us should aid us in this. But will they? The Mayor of St. Louis replied to a message from Mayor Winter asking that city to put its hand into its pocket and pay a share of the expense f'at he could not do so without the city council, and that it would not meet to traosact such business untill next September. This was Ove-scoltz, and pity it is that better men than he is should have the black vomit, and he have not even a symptom of the fever. Paducah answered in a better spirit. She did not give anything, it is true, but she was polite and said she suit of a call on the gentlemen would take the matter into consideration, It is evident that we will receive no aid may not have occasion to regret it. Other towns would if they could, but, like ourselves, have not the means to give. We have no recourse left therefore but to anpeal to our State Board of Health. We thick we can do this with justice and propriety; for, of what use is that Board if it cannot be used to keep out of the state diseases as terrible as the yellow fever? Dr. Rauch, the president of the State Board of Health, seid, a few days ago, that he had fears of the extension of the fever to Cairo and other river towns in Illinois, and in a letter to Dr. Wardner of this city said: "It is undoubtedly the duty of our board to take every precaution to prevent its introduction into the State." In another interview he said the State Board of Health could declare quarantine at any of the river pow te in Illinois, and would do so at Cairo and appoint an inspector there as soon as it appeared that the yellow curse was likely to much further northward. Progress of the discare in this direction he hoped would ! be prevented by the action of the Memphis authorid- who were taking eve-y precausame relation to the Republic n are , in then to keep off the dread visitor. The doctor is a good salker; but if he were a horseally. Ker is a member of the approach of owner and was informed of the approach of a acree thief he would is all probability talk about he precar for neer any to be ater against such thieve, and after his horse had been stolen lock the door with great parade. The State Board should not remain 'ancive. Dr. Rauch can be induced to help us, and that help to be effective should be spendy. Mayor Winter

REMEMBER the Eckert leaves the wharf at exactly half-past six to-night. She will return again at eleven, giving the old folks lican, appointed Mr. Obcely, a Demogra, to The hours between eleven and two will be an office precedent had said a Democrat spent on the river with the young people, should fill-to the meaority membership of music, dancing, and the etceteras, in fact. the Board of Railroad and Warehouse "a good time" generally,

GROWING OLD GRACEFULLY.

Socily, oh! softly, the years have swept by thee, Touching thee lightly with tenderest care: Sorrow and care did they often bring pigh thee: Yet they have len but beauty to wear, Growing old gracefully, Gracefully fair.

Far from the storms that are washing the ocean: Nearer each day to the pleasent nome light. Far from the waves that are big with commotion Under full sail and the hatbor in sight! Growing old cheerfally, Cheerful and bright.

Past all the winds that were adverse and chilling Past all the islands that lured thee to rest; Past all the currents that woodd thee unwilling. Far from the port of the land of the blest, Growing old peacefully; Peacefully and blest.

Never a feeling of envy and serrow, Where the bright faces of children are seen: Never a year from their youth wouldst thou borro" Thou dost remember what lieth between, Growing old willingly.

Rich in experience that angeles might covet; Bich in a faith that has grown with thy years; Rich in a love that grew from and above it: Soothing thy sorrows and hushing thy fears. Growing old wealthily, Loving and dear.

Glady, I ween!

Hearts at the sound of thy coming are lightened. Ready and willing thy hand to relieve; Many a face at thy kind words has brightened, "It is more blessed to give then receive!" Growing old happily;

> Biesi, we believe. THE GOWN TEST.

He sang a song, he sang it well. His voice was low and tender. He sang in praise of her he loved-A kulght, her brave defender.

He voced by all the gods above No braver ko'ch or truer E or sought the maiden of his choice And prived to be woosy.

To a st his love she thought it well. Ere her juture life she trus ed. She were next uight, a horrid gown, And he go, up and dested.

CONVINCING EVIDENCE.

ADDITIONAL FACTS CONCERNING THE WON-DERFOL CURES PERFORMED BY THE HOL-MAN PAD

St. Louis Globe-Democrat.

Day after day new and more remarkable statements are sent to us by well known and our most prominent citizens of the marvelous cures of dangerous diseases, that have became chronic, by the use of the Holman Pad and auxiliary remedies. The agency for the sale of this now standard remedy was established in St. Louis only three months ago, yet in that short time the Pad and auxilliaries have acquired a popularity absolutely unparatelled, being now worn by over 100,000 people in the West and Southwest, and in every instance with the most satisfactory results.

The Pad is not only a preventive and cure for nearly every disease known to the temperate zone, but is specially efficacious in the treatment of cholera and cholera-infantum. When worn according to directions, it secures the patient against the attacks of those dreadful diseases, and is no less succonfut in ouring the worst cases of these fearfully fatal scourges.

Below will be found a few additional testimonials from prominent gentlemen, who tion to the the Holman Pad and auxiliaries.

The names of the following well-known gentlemen were read off at random to the reporter of the Globe-Democrat by Drs. Chaplin and Barber, at their pariors, and the interviews below are the re-

ST. LOUIS BOOK AND NEWS COMPANY. The manager, Mr. M. J. Gilbert, said he had not tried the efficacy of the Holman from any of the river towns. St. Louis is Pad, but several of his acquaintances had, able, but will not give it, and we hope she all of whom had been greatly benefited. and more particularly Mr. Thos. Benne... clerk in Maj. Grimes offices; also Mr. Hess, a clerk in the St. L. B. and N. Co., a confirmed dyspeptic for years. Mr. Gilbert also said that he received many orders from customers in the country, and he was of the opinion that the Holman Pad was truly a most remarkable remedy.

The reporter next found

MR. HESS. the dyspeptic mentioned by Mr. Gilbert. Mr. Hess said: I've been a victim of dyspepsia for five years, and only those who have been like sufferers know of the "hell on earth" this horrible disease makes for all so afflicted. I suffered intensely, and my head ached so terribly that I could scarcely attend to business. I have worn the Pad but a short time, and if I keep on improving in the future as I have in the past, I'll be a well man and no more headaches. CASHIER OF THE DUNHAM MANUFACTURING

COMPANY-CHILLS. Mr. Kavanaugh, the cashier of the M. D. Co., 409 North Main street, said: I first bought one for my younger son, who was afflicted with chills and malarial fever, contracted while on a visit to the bottom lands in southern Illinois. It worked like a charm; broke the chills and cleared his sistem of the malaria. I had tried every known remedy, but without relief. My elder son was also afflicted with chills, had no ambition, no energy, and didn't care whether school kept or not--when his periodical chills came on he was totally unfit NO REMEDY SO GOOD for work, and every bone in his body was aching and his complexion was a saffron callow. I got a Pad for him, and to-day he is all right. I then bought one for myself. I have worn it two weeks, and feel much better to-day than I have in years. The treatment by absorption, as dev loped by the Holman Pad, is, in my opinion, nature's own way, and I now recommend it to all who are afflicted-for myself I shall never use any other remedy in my family for a disordered stomach chills, or any other malarial complain.

WM. MULHALI -- MALARIA. Mr. M. is a butcher, stall 86, Union Market, said: I have been a sufferer from Malarial fever for over a year. I had no will for work, no energy, always tired and atterly without ambition. In this condition I went for a Pad, and, sir I tell you 1 began to improve in two days; my appetite ceturn-

their most trusted medical experts, and have established his consultation parlors at the St. Charles until an affice in a more central location can be fitted up. All consuitations are free, and patients can be treated with safety and correctness by letter. Those who are not able or do not find it convenient to call at the hotel, will, on application, at their homes, receive consuitation free of charge. Address, Holman Pad Co., St. Charles Hotel, Cairo, Ill. Sec price list in another column of this paper.

CLEAR THE WAY .- For the escape from the system of its waste and debris, which, if retained, would vitiate the bodily fluids and overthrow health, that important channel of exit, the bowels, may be kept permanently free from obstructions by using the non-griping, gently acting and agreeable cathartic, Hostetter's Stomach Bitters, which not only liberates impurities, but invigorates the lining of the intestinal canal when weakened by constipation or the unwise use of violent purgatives. The stomach, liver and uninary organs are likewise reinforced and aroused to healthful action by this beneficent tonic and corrective, and every organ, fiber, muscle and nerve experiences a share of its invigorating influence. Unobjectionable in flavor, a most genial and and wholesome medicinal stimulant, and owing its efficacy to botanic sources exclusively, it is the remedy best adapted to household use on account of its safety, wide to all scope and speedy action.

MANY A DOLLAR formerly spent on expensive Sulphur Eaths is now saved by substituting therefor Gienn's Sulphur Soap, which is test as beneficial but infinitely cheaper. Local diseases of the skin. rheumatism and gout are all relieved by this standard remedy. Complexion blemishes are endicated by it, and it imparts to the c'e a pearly white ness and velvety softness w. a greatly enhances the effect of female charms Its soothing, antiphlo gistic action constitutes it a prime remedy for sores ulcers, cuts, sprains, scalds, brulees, and in fact every abnormal condition of the cutiele attended by inflammation, swelling or itching. Ladies moving in our test society speak of its beautifying properto amusissic terms, and give it a decided preat-ace to cosmetics which merely conceal but do not, like Glenn's Sulphur Soap, eradicate defects of the complexion. The use of cintments for eruptive complaints is to be deprecated because of their having a tendency to clog the porce and in some cases to aggravate rather than remedy the disease. They are, besides, seldom thorough enough in their effects to prevent the recurrence of eruptions of an inveterate type and have the disadvantage of soiling the linen of persons who are them. Glenn's Sulphur Sosp, on the contrary, radically dres the diseases to which it is adapted and still further recommends itself on account of its cleanliness. It is, besides, an admirable disinfect ant of clothing which has been worn by persons afflicted with diseases a contagious nature. As a specific preventive and promoter of the general health it presents advantages of the most unequivocal description. Sold to Druggists. Hill's Hair and Whisker Dye, black or brown
